Dear Jay,

Thank you for confirming in October that I could give out your contact information if questions from the public arose related to enforcement. I did that at the October 19 EJ Task Force Meeting. I did that again at a 12/20 meeting. I wanted to make sure you had the background and context in case you get any calls. Thank you to Jackie Lane and Brianna Fairbanks for helping to write the attached summary of the 12/20 mtg in response to the attached 10/19/16 letter. I have attached the handouts we distributed. Enrique will follow up the meeting with reminders of several things we discussed, including your contact info. Of course, you can send them back to me for any questions related to Superfund's role.
